How much progress do pupils make?

Overall progress is outstanding, with pupils working at p-levels making exceptional progress, based on comparison with data from the progression guidance. Pupils in receipt of pupil premium at Rowdeford are **all making good or outstanding progress**.

Progress is comparable to three sets of national data: during key stage 3 (KS2-3), during key stage 4 (KS3-4), and across both key stage 3 and 4 (KS2-4).

Results in English and Maths from July 2017:

KS2-3	Outstanding progress: English, 83% and Maths, 88% of pupils performed within the upper quartile.
KS3-4	Outstanding progress: English, 100% and Maths, 96% of pupils performed within the upper quartile
KS2-4	Outstanding progress English, 96% and Maths, 100% of pupils performed within the upper quartile

How have our results changed over time?

We believe that the change in results over time is not a fair reflection of progress at Rowdeford School. Each year the intake changes considerably, which has a marked affect on any average attainment scores. It is important to point out that OFSTED agree that the most accurate measure for special schools, when wanting to demonstrate that pupils are doing well, is progress against themselves. Therefore, the previous section on Progress is the best way to reflect the good progress of pupils in the school.
