

I am Vanessa Haines, Family School Support worker based at the Rowde Campus.

I began my journey within the school setting when my youngest child of three began Primary School, where I started work as a general Teaching Assistant. During this time, I became interested in working with children with SEN on a one to one basis. My role evolved into supporting both children and parents/carers. An opportunity arose at Silverwood which enabled me to explore further my passion for SEN and provide targeted support for families.

I joined Silverwood in 2021 in my current position where I am continuing to develop and enhance my skills and passion for supporting children and their families within a specialist environment.
