What is Child Protection?

Child protection is the process of protecting children and young people who have been identified as suffering, or likely to suffer harm as a result of abuse.

There are four types of abuse: Physical, Sexual, Emotional and Neglect

Safeguarding is the action that people take to keep all children safe, for example:

- Protect children from harm
- Ensure that they are safe and well looked after
- Take action so that all children are able to grow up in a safe environment.

ALL CHILDREN HAVE A RIGHT TO BE PROTECTED FROM HARM

What does your school have to do?

Your school must have a senior member of staff who is responsible for child protection. This person has the title of **Designated Safeguarding Lead**.

The school will have a Child Protection Policy. This document will set out the process for dealing with child protection concerns. If you would like to read this policy you will find it on the schools Website, alternatively you can ask the school for a copy.

This policy will also set out the process for reporting allegations about members of staff, including volunteers.

Statement of Intent

We intend to create in our school an environment in which children are safe from abuse, and in which any suspicion of abuse is promptly and appropriately responded to.

All adults in school, including volunteers, must have regular training to ensure that they are aware of the signs of abuse and know what to do about any concerns. They have a duty to report these to the Designated Safeguarding Lead.

The school has a legal duty to talk to other agencies such as Children's Social Care and the Police if they think a child may be at risk of harm.

THE WELFARE OF YOUR CHILD IS OF PARAMOUNT IMPORTANCE

What do you need to know?

If anyone in School is worried about the welfare of your child this will be discussed with you unless they think that this conversation could put your child at a greater risk of harm.

The school must also share all relevant information with Children's Social Care if they are concerned about your child.

The social worker may consult with other agencies before deciding what should happen next. They will also speak to you about the concern and keep you informed about what is happening.

If there is an allegation about an adult who works here, the school will hold discussions with the Police and Children's Social Care. If your child is involved, you will be kept informed of any discussions and decisions as appropriate.
